

Teaching Online

Flexible music tuition for all

Intro

Online Learning is Commonplace

And often far more familiar to the
student than the teacher

Why Choose Online Tuition?

The basics

Playing together is not possible

Simple things take more time eg tuning

The online space needs management.

Online and traditional lessons are not the same.

Which Platform?

- Skype
 - Zoom
 - Google Hangouts
 - Facetime
 - Musictutors.co.uk
-
- Use the One You Feel Comfortable with.
 - Prepare so you are able to Guide the Student where necessary
 - Services that do not require download are an advantage (keep it simple to start)
 - Not all internet browsers are the same! Consider Chrome or Firefox.

Technical Set Up

- **Start Simple and Work up From there!**
- In built camera / audio are a starting point, some platforms support external audio / visual equipment for a better experience.
- Use headphones
- Laptop / Desktop wins over smartphone / tablet
- Ask students to use headphones too.
- Budget some time in the first lessons to give browsers permission to use mic and camera.
- Consider the technical requirements of the student and be prepared to help them.

Test Your Set-up

- Test your set up to get comfortable
- Be prepared for challenges
- Most Problems Are Easily Solved, keep calm!

Working with Students in the Online Space

- Safeguarding, Professionalism and Preparation
 - The Lesson Itself
 - Recording
 - Conclusion
- 

Safeguarding, Professionalism and Preparation

- Your duty of care remains , regardless of the location of the lesson.
- Teaching online should reveal no details about your personal life nor that of the student.
- Set your computer to do not disturb mode and ask your student to do the same.

- Lav en test med en kollega/ven/nabo/barn
- Hav forskellige øvelser og materiale klar
- Send gerne materiale ud på forhånd fx YouTube tutorials
- Vid at det sværeste er helt grønne elever

Before you get started

- Aftal hvilken platform I bruger
- Afstem hvor meget tid der bruges på forklaring vs. Spil
- Aftal om undervisningen skal optages
- Aftal hvordan betalingen foregår (forudbetaling)

- Lav teknisk opstart inden første lektion (10-15 min)
- Hav en back-up kommunikationsmetode fx telefon/messenger
- Setting: Ro på baggrunden, skal I stå eller sidde?

The teaching itself

- Alt skal være ping-pong
- Vælg korte øvelser og byg på langsomt
- Hold jeres aftale om tid brugt på forklaring vs. spil
- Hold evt. kort pause midtvejs i undervisningen
- Fokus på kvaliteten af læringen frem for mængden

Planning and Evaluation

- What went well?
 - What does the student want more or less of?
-
